Presentation

The International Association of Road Safety Professionals (AIPSEV) is a non-profit development NGO founded by Partners in the field of police, education, psychology and victims of traffic accidents, from countries on both sides of the Atlantic; Spain, Chile and Argentina, united by the social commitment and the unavoidable ethical duty to prevent traffic accidents through education for road safety.

We are convinced that with international partnership and solidarity professional commitment we aspire to reduce deaths and injuries due to traffic accidents, through education, training and road training from early ages and during All life and that we all have a lot to contribute and a role to play in this fight against road accidents and road violence.

AIPSEV It is a non-profit organization, where people from various fields of professional and civil society, we assume a mission, share values and have a common vision of a world without casualties of road casualties.

With the international associationism and the Professional solidarity commitment we aspire to reduce deaths and injuries due to traffic accidents, through education, training and training from early ages and lifelong.

Convinced that we all have a lot to contribute and a role to play in this fight against road accidents, we invite you to discover your power to save lives and make a difference in the world, and, to associate with passionate people who love what are you doing.

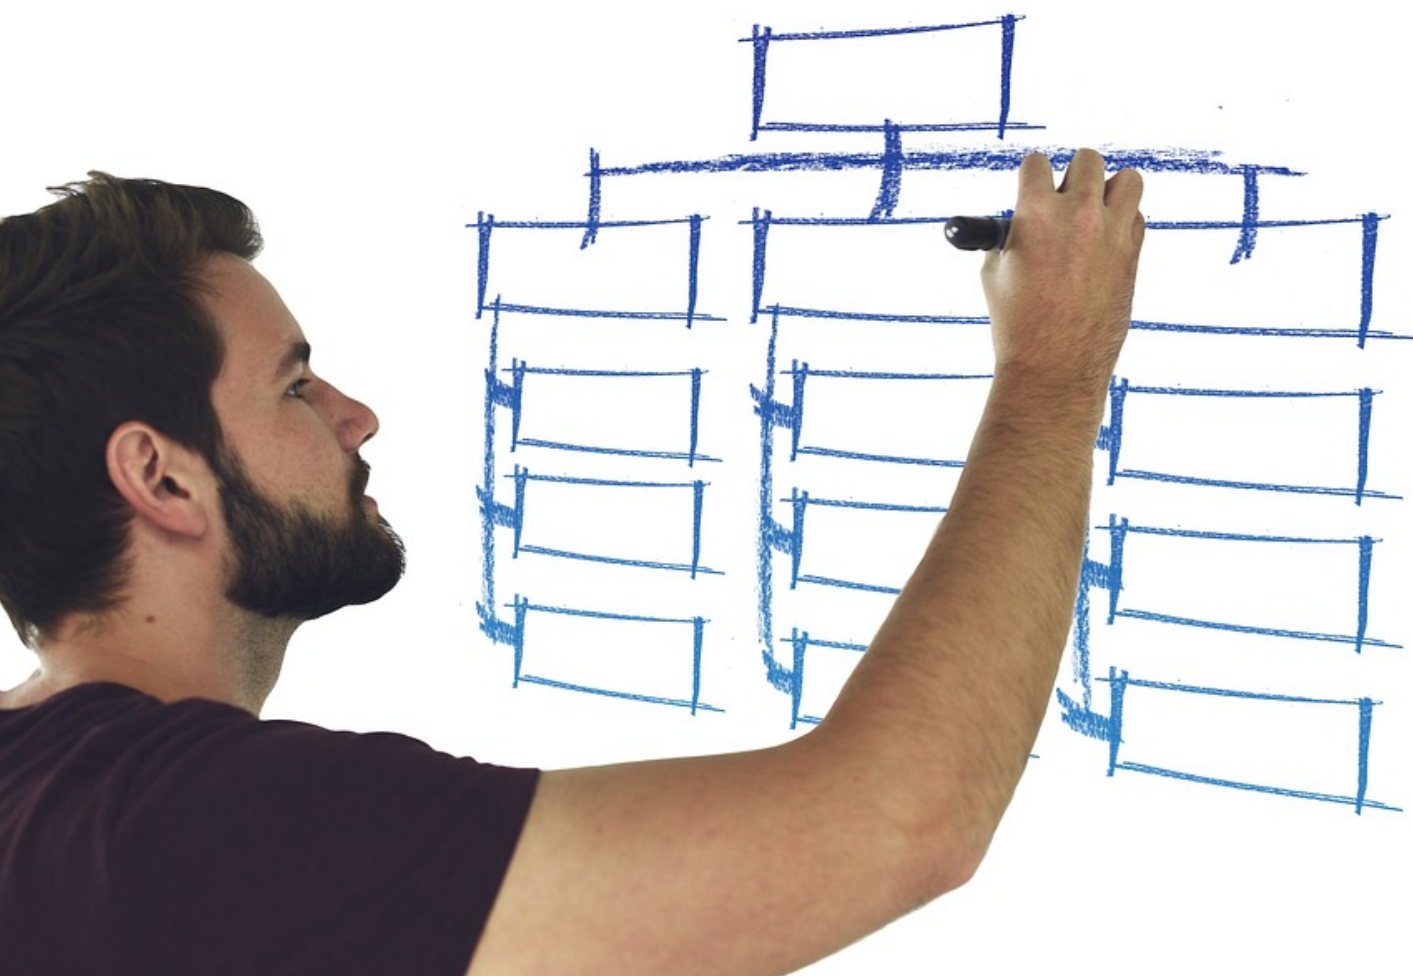

AIPSEV is a Fundamental pillar of the police and educator project for road safety, and our Mission is to reduce injuries and deaths from traffic accidents, inspired by road education at an early age and road training, awareness and training throughout life.

AIPSEV's vision is Victims of traffic accidents and their values, honesty, solidarity, commitment and coherence.

For the fulfillment of its aims, AIPSEV carries out a wide range of actions, which in 2018 have been developed in three continents and thirteen countries, and include:

Cooperation with people affected by the scourge of traffic accidents.

Promotion of international cooperation projects for the prevention of road accidents.

Promotion of the training of professionals for the prevention of traffic accidents and the improvement of road safety.

Design of didactic materials to implement road education at an early age and teaching guides to ensure its proper use.

Promotion of the exchange of good practices in education, training, awareness-raising and road training.

Participation in meetings, debates, courses, congresses... to make known their actions.

4 The project

The Police & Educator Project for the Road safety
To reduce injuries and deaths from traffic accidents, the project is based on five basic pillars and a transversal axis, which we invite you to know:

AIPSEV-NGO. For through international Associationism unite the professional commitment to fight against road casualties and road violence.

#EducarSalvaVidas, a program for safe and sustainable mobility, to add to the effort of the school, the family and the administration in the prevention of road accidents at an early age, through education for road safety.

CIPSEVI, Ibero-American Congress of Professionals for road safety, for the exchange of knowledge and good practices

Training, to boost the training of professionals to save lives in transit.

#MiEjemploEduca, social responsibility program, to promote social commitment in the prevention of road accidents.

As a transversal axis, cooperation for international development in road safety.

5 International cooperation

NGO for Development

AIPSEV enjoys institutional autonomy, which allows it to promote programs and projects according to specific needs, in certain fields of action for the fulfillment of its purposes-non-profit-and its mission is to reduce the injuries and deaths due to losses of Transit.

The police and educator project for road safety has as a transversal axis international development cooperation – in the field of road safety-understood in an associative and non-welfare framework. And assuming the objectives of sustainable development in the Plan of Action AGENDA 2030 of the Government of Spain and the Andalusian plan of cooperation for the development of the Government of Andalusia.

Sustainable Development Goals

AIPSEV It assumes the objectives of sustainable development for 2030, adopted by all Member States in September 2015 at the UN General assembly and especially those related to road safety:

ODS 3 – Ensuring a healthy life and promoting wellbeing for all in all ages:

Goal 3.6: For 2020, halve the number of deaths and injuries caused by traffic accidents in the world.

ODS 11 – Making cities and human settlements inclusive, safe and resilient and sustainable.

Goal 11.2: For 2030, provide access to safe, affordable, accessible and sustainable transport systems for all and improve road safety, in particular through the expansion of public transport, with special attention to the needs of Vulnerable people, women, children, people with disabilities and the elderly.
